Enrich your life by achieving your goals.

Don't have time? Now you will. By setting priorities and planning in advance, you'll begin to see opportunities develop into more time for yourself and what you really want to achieve. My-Tyme® makes it easy! Every tool you'll need is at your fingertips. Utilizing a sophisticated calendar system with goal planning and tracking sheets – even delegation tools – My-Tyme® organizes your life while you plan your future.

Our system does more than just track and manage your time. The My-Tyme® Personal Management System motivates you to become **goal directed** – not **task driven**, as most other planners do. In all six areas of your life (Family/Home, Financial/Career, Mental/Educational, Physical/Health, Social/Cultural, Spiritual/Ethical), you become proactive – not reactive. You always know what to do **next!**

The best possible investment you can ever make is to use your time wisely. With the My-Tyme® Personal Management System, you can learn how to dramatically increase your productivity without putting in more hours.

With this system, you will:

- See a measurable improvement in your personal productivity.
- Experience less stress.
- Get more things done in less time.
- Start achieving goals rather than just setting them.
- Deliver on promises because nothing will ever slip through the cracks.

Getting started is a cinch.

Now is the time to do it. Don't put it off until the new year rolls around. My-Tyme® begins any month you choose. And it's so simple. All you need is a My-Tyme® binder and starter set.
